

**§ 54.609 Calculating support.**

(a) Except with regard to services provided under § 54.621 and subject to the limitations set forth in this subpart, the amount of universal service support for an eligible service provided to a rural health care provider shall be the difference, if any, between the urban rate and the rural rate charged for the service, as defined herein. In addition, all reasonable charges that are incurred by taking such services, such as state and federal taxes shall be eligible for universal service support. Charges for termination liability, penalty surcharges, and other charges not included in the cost of taking such service shall not be covered by the universal service support mechanisms.

(b) Except with regard to services provided under § 54.621, a telecommunications carrier that provides telecommunications service to a rural health care provider participating in an eligible health care consortium must establish the applicable rural rate for the health care provider's portion of the shared telecommunications services, as well as the applicable urban rate. Absent documentation justifying the amount of universal service support requested for health care providers participating in a consortium, the Rural Health Care Corporation shall not allow telecommunications carriers to offset, or receive reimbursement for, the amount eligible for universal service support.

(c) The universal service support mechanisms shall cover reduced rates on intrastate telecommunications services, as set forth in § 54.101(a), provided to rural health care providers as well as interstate telecommunications services.

[62 FR 32948, June 17, 1997, as amended at 62 FR 41305, Aug. 1, 1997; 63 FR 2131, Jan. 13, 1998]

**§ 54.611 Distributing support.**

(a) A telecommunications carrier providing services eligible for support under this subpart to eligible health care providers shall treat the amount eligible for support under this subpart as an offset against the carrier's universal service support obligation for

the year in which the costs for providing eligible services were incurred.

(b) If the total amount of support owed to a carrier, as set forth in paragraph (a) of this section, exceeds its universal service obligation, calculated on an annual basis, the carrier may receive a direct reimbursement in the amount of the difference.

(c) Any reimbursement due a carrier shall be made after the offset is credited against that carrier's universal service obligation.

(d) Any reimbursement due a carrier shall be submitted to that carrier no later than the end of the first quarter of the calendar year following the year in which the costs were incurred and the offset against the carrier's universal service obligation was applied.

**§ 54.613 Limitations on supported services for rural health care providers.**

(a) Upon submitting a bona fide request to a telecommunications carrier, each eligible rural health care provider is entitled to receive the most cost-effective, commercially-available telecommunications service using a bandwidth capacity of 1.544 Mbps, at a rate no higher than the highest urban rate, as defined in this subpart, at a distance not to exceed the distance between the eligible health care provider's site and the farthest point from that site that is on the jurisdictional boundary of the nearest large city, as defined in § 54.605(c).

(b) The rural health care provider may substitute any other service or combination of services with transmission capacities of less than 1.544 Mbps transmitted over the same or a shorter distances, so long as the total annual support amount for all such services combined, calculated as provided in this subpart, does not exceed what the support amount would have been for the service described in paragraph (a) of this section. If the rural health care provider is located in an area where a service using a bandwidth capacity of 1.544 Mbps is not available, then the total annual support amount for that provider shall not exceed what the support amount would have been
